caption	Family: Satoshi Weight: 400 Size: 11px Line Height: 16 Letter Spacing: 0 Use: Timestamps, fine print, accessibility labels	Link Text

Colors

#FF8870 — (Use for: primary buttons, active tab indicators in Bottom Nav, back chevron in Top Nav, progress bar fill, selected chip fill, checkbox selected fill, radio selected ring and dot, send button in Chat input, streak indicator text, Study Mode toggle On state, FAB background.) — **Primary Brand Color**

50 100 200 300 400 500 600 700 800 900 950

Light coral tint #C65345	**Selected State background** on quiz option cards, hover/pressed states on secondary elements.	Primary-subtle Color
Faded coral #FFDCD5	**primary button Disabled** state fill.	Primary-disabled
#F7F7F7	**Subtle border** for input Default and Filled states. Weight: 0.5px Inside.	Border/Input-default
Border/input focused #FF8B7D	**Coral border** for input Focused state. Weight: 1px Inside. Same as brand/primary visually.	Border/Input-focused
Border/input error #C56B5A	**Soft brick** for Input Error state. Weight: 1px Inside. Never use for general error states — input fields only.	Border/Input-error
State/Success #7DB89E	**Sage green** for completed states, Progress Bar Sage variant fill, Insight card Sage tint, correct answers in quiz.	State/Success
State/Warning #F4B942	**Amber** for Insight card Amber tint, gentle warning messages, "heads up" cards. Never use for errors.	State/Warning
State/Critical #F4B942	**Soft brick/red** for Emergency/Panic card surface, critical alert states only. Reserved — do not use for form validation errors.	State/Critical
Text/Primary #2A1F3A	**Full Aubergine** for all primary readable content, subject names, body copy, screen titles, card headings, filled input text, button labels on light surfaces. Use on white/frosted card surfaces always, even for section labels.	Text/Primary

50 100 200 300 400 500 600 700 800 900 950

Text/Secondary	**Dimmed Auvergne 60% opacity** for supporting text, placeholder text in inputs, chapter/subtitle text below primary content, timestamps, card metadata. Do NOT use for section labels on white cards — they will disappear. Use text/primary instead.	Text/Secondary
Text/Disabled	**Faded Auvergne 30% opacity** for completed task text, greyed-out states, inactive options.	Text/Disabled
Text/On-Brand #FFFFFF	**White** for all text and icons sitting on brand/primary (coral) surfaces — button labels, active chip labels, FAB icon, checkbox checkmark. Never use on light/gradient backgrounds.	Text/On-Brand
Surface/Card-Primary #FFFFFF	**White 55% (#FFFFFF8C light)** all primary cards — Today's Plan, A Gentle Note, Insight cards, Task cards, input field backgrounds.	Surface/Card-Primary
