Professional Summary

UI/UX Designer with 5+ years of software development experience and hands-on experience in UX research, interaction design, visual design, and frontend development. Skilled in simplifying complex workflows and translating user needs into clear, user-centered digital experiences, with experience designing healthcare, fintech, and education-focused solutions. Brings a strong combination of design thinking and engineering knowledge, with a focus on thoughtful experiences and collaboration with product, UX/UI, engineering, and QA teams.

Experience

UI/UX Lead & Full Stack Developer | Monad Health **Jun 2024 - Present**
B2B Healthcare Product

- Supported the design and development of an EHR platform for home healthcare, simplifying clinical workflows and improving information discoverability.
- Designed and refined interfaces for **Referrals, Orders, Scheduling, and Billing Denials** workflows.
- Conducting user research to understand the needs and pain points of **clinicians, nurses, and non-technical users**, focusing on faster task completion and fewer workflow errors.
- Collaborating with **Product, UX/UI, and QA teams** to translate workflow requirements into user-centered interfaces using Vue.js, Nuxt.js, and MySQL.

Associate Developer | Cognizant **Mar 2021 - Jun 2024**
Enterprise Financial Invoice Automation

- Designed the front-end UI using ADF which helps business clients to get the invoices.
- Automated daily analytics and report distribution, reducing manual operational effort.
- Conducted technical knowledge-transfer sessions on design and project architecture also authored a white paper which got selected as best innovation among top submissions.

Design Experience

Freelance Designer | Clients: India & United States **2018 – Present**
UX Research, Visual Design & Digital Experiences

- Created branding, visual communication, campaign, and promotional designs for community and business initiatives.
- Provided UX and visual design support for educational and digital initiatives, translating user needs into clear and accessible experiences.
- Worked for branding of herbal and food products to support women entrepreneurs.

UX Case Studies

PayNora *UX Research & Product Design*

- Designed a digital payment experience for cautious and senior users, addressing **fear of mistakes, fraud concerns, and dependence on family members**.
- Explored guided payment flows, simplified navigation, voice-assisted confirmation, and practice-based learning to build user confidence.

HeadRoom *UX Research, UX/UI & Visual Design*

- Designed a study companion for students preparing for competitive exams, addressing **burnout, emotional pressure, and difficulty maintaining study momentum**.
- Developed a calm, supportive visual system using soft colors, rounded components, clear hierarchy, and gentle feedback to support focus and recovery.

Education
